SUMMARY

Computer Science co-op student at Toronto Metropolitan University (expected graduation April 2028) and Programmer Analyst at the TTC. I write Python and JavaScript daily, create web pages and HTML/CSS/JavaScript embeds, participate in code reviews, and ship practical tools for internal users. Prior experience in IT automation at the City of Toronto and QA leadership at Walmart Canada. Skilled in JavaScript, Python, SQL, React, Angular, Node.js, Git, and AI-assisted development (GitHub Copilot, Claude, ChatGPT). Seeking software developer co-op and internship opportunities.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript (foundational), Python, Java, C#/.NET (foundational), SQL, HTML, CSS, XML, PowerShell, VBA, C++
- **Frontend and Web:** React.js, Angular, HTML/CSS/JavaScript embeds and web pages, responsive UI, browser developer tools
- **Backend and Data:** Node.js, Express.js, REST APIs, MongoDB, Oracle SQL, SQL Server, MySQL, Sequelize, Power BI
- **Tools and Practices:** Git, GitHub, OOP/SOLID, SDLC/Agile, debugging and testing, code reviews, Visual Studio, VS Code, Jira, SharePoint
- **AI Tools:** GitHub Copilot, Microsoft Copilot, Claude, ChatGPT (coding, debugging, documentation)
- **Cloud and Systems:** Azure and AWS (foundational concepts), Linux/UNIX (coursework)

PROFESSIONAL EXPERIENCE

Programmer Analyst Co-op, TTC, Toronto, ON — Sept 2026 to Dec 2026

- Write and maintain Python and JavaScript code for internal tools and applications used by business teams
- Create web pages and build an interactive HTML, CSS, and JavaScript embed for internal web use
- Improve database-driven applications (including VBA/MS Access) and SharePoint intranet content
- Participate in peer code reviews and use GitHub Copilot and Claude to speed up coding, debugging, and documentation
- Build Power BI dashboards and document technical changes for reliable handoff and support

IT Trainee, City of Toronto, Toronto, ON — Sept 2025 to Apr 2026

- Developed Python and PowerShell scripts to automate data and IT workflows using Git and structured error handling
- Supported software deployments, testing, and troubleshooting across enterprise systems
- Applied SDLC-minded delivery: clarified needs, implemented, tested, documented, and communicated with users

QA Team Leader, Walmart Canada, Mississauga, ON — Sept 2023 to Sept 2025

- Built Excel VBA automation and Power BI dashboards that improved reporting accuracy and reduced manual work
- Investigated defects with structured root-cause habits and validated outputs before release to stakeholders
- Translated business requirements into working tools and clear status updates for leadership

PROJECTS

E-Commerce Platform (React, Vite, Express, Sequelize; in progress) — github.com/LavleenSaini/React_2026

- Building a React and Vite storefront with routed pages for Home, Checkout, Orders, and Tracking
- Developed a product grid UI (ratings, pricing, quantity) and header navigation using reusable components
- Backend in progress: Express REST APIs for products, cart items, orders, delivery options, and payment summary

Full-Stack Blog Platform (React, Node.js, Express, MongoDB) — github.com/LavleenSaini/Articles

- Shipped a full-stack web app with REST CRUD APIs, validation, error handling, and a React frontend
- Practiced clean structure, debugging, and Git collaboration suitable for team software delivery

Weather App (Node.js, Express, JavaScript) — github.com/LavleenSaini/WeatherApp

- Built an API-backed app with a secure Express proxy and structured error handling for failed responses

EDUCATION

Toronto Metropolitan University, BSc Computer Science — Sept 2023 to Apr 2028 (expected)

- GPA: 3.65 / 4.33 | Dean's List | Co-op program
- Relevant Coursework: Data Structures and Algorithms, Software Engineering, Web Development, Database Systems, Object-Oriented Programming, Linux/UNIX

Northern College, Computer Programming Technician Diploma — Jan 2019 to Aug 2020

- GPA: 3.5 / 4.0 | Dean's List
- Relevant Coursework: Python, Advanced Databases, SQL, OOP (Java), ASP.NET and C# fundamentals
